ÜNİVERSİTESİ

**FACULTY OF HUMAN AND SOCIAL SCIENCES**  
**DEPARTMENT OF PSYCHOLOGY (30% English)**  
**2025-2026 ACADEMIC YEAR COURSE CONTENTS**

**INTRODUCTION TO PSYCHOLOGY 1**

Psychology and Life/ Research Methods in Psychology and Statistical Supplement/ The Biological and Evolutionary Bases of Behavior/ Sensation and Perception/ Mind, Consciousness and Alternate States/ Learning and Behavior Analysis/ Memory/ Cognitive Processes

**INTRODUCTION TO PSYCHOLOGY 2**

Intelligence and Intelligence Assessment/Human Development Across the Life Span/ Motivation/ Emotion, Stress, and Health/ Understanding Human Personality/ Psychological Disorders/ Therapies for Psychological Disorders/ Social Psychology

**CONTEMPORARY APPROACHES TO PSYCHOLOGY**

Psychology as a science: The Birth of Psychology/ Historical Origins of Psychology/ Psychoanalytic Approach: Freud's theories/ The New Freudians: A New Psychoanalytic Approach/ Effects of the Social Psychology on Psychoanalysis/ Humanistic Approach/ Gestalt Approach/ Biological Approach/ Behavioral Approach/ Cognitive Approach/ What Awaits Psychology in The Future? / Which Approach Are You Close to? / Feedback and General Discussion.

**STATISTICS FOR BEHAVIORAL SCIENCES 1**

Introduction to Statistics / Basic Concepts of Statistics / Types of Data / Data Collection / Reliability and Validity of Data / Measures of Central Tendency: Arithmetic Mean Squared, Median, and Mode / Properties of Measures of Central Tendency / Selecting a Measure of Central Tendency / Measures of Variability: Variance, Standard Deviation, Range, Coefficient of Variation

**STATISTICS FOR BEHAVIORAL SCIENCES 2**

Probability: Event, Sample Space and Probability, Union and Intersection, Conditional Probability / Discrete and Continuous Distributions / Random Variables / Probability Distributions: Binomial Distribution, Normal Distribution, Standard Normal Distribution / Hypothesis Testing / Simple Random Regression

**INTRODUCTION TO PHILOSOPHY**

The Origin of Philosophy / Foundation in Philosophy / What Does Philosophy Deal With? / Philosophy or Metaphysics? / Periods in the History of Philosophy and Their Main Characteristics: Logic, Theory of Knowledge: Epistemology / Idea, Judgment, Science and Technology Ontology: Being and the Anatomy of Existence / Ethics: Moral Philosophy, Aesthetics: Philosophy of Art / Political Philosophy / Philosophy of Man: Anthropology of Philosophy / Religion (or Religiousness): Philosophical Breakthroughs / Islamic Philosophy, Sufism

**ACADEMIC SUCCESS AND LIFE SKILLS**

Self-Awareness / Personal Mission and Vision / Goal Setting / Time Management / Definition of Communication and Communication Models / Effective Communication Methods / Effective Listening in Verbal Communication / Conflict Resolution / Confident Self-Presentation / Public Speaking / Stress and Coping with Stress

Perspective: A.Maslow, C.Rogers / Trait Perspective: Allport, Murray, Cattell, Big Five / Social Learning Theory: Bandura

**COGNITIVE PSYCHOLOGY**

Introduction/ Neurocognition/ Perception/ Attention/ Short-Term Memory and Working Memory/ Long-Term Memory: Structure/ Long-Term Memory: Encoding, Retrieval, and Consolidation/ Daily Memory and Memory Errors/ Language/ Problem Solving/ Decisions and Reasoning

**RESEARCH METHODS IN PSYCHOLOGY**

Scientific Knowledge/ Scientific Method/ Ethical Issues in Psychology Research/ Observation/ Survey Research/ Independent Group Designs/ Repeated Measures Designs/ Complex Designs/ Single Subject Research Designs/ Quasi-Experimental Designs and Program Evaluation/ Analysis and Reporting of Research/ Data Analysis and Interpretation: Part 1. Data Description, Confidence Intervals, Correlation/ Data Analysis and Interpretation: Part 2. Testing Statistical Significance and History of Analysis/ Communication in Psychology: Structure of a Research Report/ Data Collection/ Data Collection Methods of Observation/Natural Observation/Controlled Observation/Interview/Non-Intervention Data Collection Methods/Paper-and-Pencil Data Collection Tools/Psychological Measurement Tools/Definition and Classification/Required Characteristics of Psychological Measurement Tools/Reliability/Validity/Survey/Data Analysis/Conditions Determining Data Analysis/Summarizing and Interpreting Data/Two Basic Statistical Measures of Data/Measures of Similarity/Central Cluster/Measures of Mean/Measures of Difference-Measures of Variation/Alpha/Generalization from Sample to Population/Inferential Statistics/Hypothesis Testing/Correlation/Regression/t-Tests/Analysis of Variance/Writing Scientific Studies/Structure of an Empirical Research Article/Writing a Research Proposal/Review Articles/Publication of Scientific Studies/Presentation of Scientific Studies/Scientific Congresses/Symposium/Seminar/Related to Psychological Assessments Ethical Guidelines/Ethical Guidelines Regarding Research and Publication

**PSYCHOPATHOLOGY 1**

This course aims to provide students with a basic understanding of the history of psychopathology, modern perspectives in psychopathology, causes and risk factors of psychopathology, clinical assessment, clinical signs and symptoms, and diagnostic and classification systems. In this context, stress and stress-related disorders, panic and anxiety disorders, anxiety disorders, mood disorders, somatoform disorders, eating disorders, personality disorders, sexual disorders, schizophrenia and other psychotic disorders, dementia and other cognitive disorders are examined in terms of their clinical presentation, treatment and course characteristics, and prevalence rates in the population.

**PSYCHOPATHOLOGY 2**

This course will cover the assessment of psychopathology, the recognition of psychopathological signs and symptoms, and the diagnosis of mental disorders in a clinical setting, using case studies. This course will cover neurodevelopmental disorders, personality disorders, stress and stress-related disorders, anxiety disorders, mood disorders, somatoform disorders, eating disorders, sleep disorders, sexual disorders, schizophrenia and other psychotic disorders, and neurocognitive disorders.

**MEASUREMENT AND TESTS IN PSYCHOLOGY**

Validity and reliability of tests / Points to consider in test administration / Interview techniques / Preparation of questionnaires / Learning the theoretical background and practical application of 17 tests used in the field of emotional-social development / Scales: Prenatal maternal expectations / Attachment scales / Parental attitude scales / Father involvement scale / Maternal guardianship scale /

ÜNİVERSİTESİ

**FACULTY OF HUMAN AND SOCIAL SCIENCES**  
**DEPARTMENT OF PSYCHOLOGY (30% English)**  
**2025-2026 ACADEMIC YEAR COURSE CONTENTS**

Children's perception of marital conflict scale / Emotional security scale / Couple adjustment scale / Family assessment scale / SCL90R Symptom screening scale

**INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY**

Introduction to Industrial and Organizational Psychology/ Theory, research and practice in work psychology/ Individual differences/ The foundations of personnel selection: analysing jobs, competencies and selection effectiveness & job analysis / Personnel selection and assessment methods: what works? / Assessing people at work/ Attitudes at work/ The analysis and modification of work behavior/ Training and development/ Approaches to work motivation and job design/ Stress in workplace/ General overview

**CLINICAL PSYCHOLOGY**

What is Clinical Psychology? Description/ History of clinical psychology (past and present)/ Basic features of clinical evaluation/ Observation and interview in clinical psychology/ Measurement in clinical psychology (measurement methods and tests)/ Professional issues in clinical psychology (ethics, specialization, responsibilities)/ Overview of psychotherapies/ Processes and stages of change in psychotherapies/ Patient selection and evaluation in psychotherapies/ Types of psychotherapy 1: Analysis, Gestalt therapy, Interpersonal psychotherapy/ Types of psychotherapy 2: Cognitive behavioral therapy, Group therapy

**INTERVIEWING SKILLS**

Interviewing and Communication I-II / Therapeutic Relationship and Collaboration / Types of Interviews / Essential Elements in Interviewing / Interviewer-Client / Self-Awareness / Professional and Ethical Issues / Scientific Approach / Initial Interview I-II / Clinical Interviewing I-II / Motivational Interviewing

**CAREER PLANNING**

Psychology and its Subfields / Clinical Psychology and Fields of Study / Developmental Psychology and Fields of Study / Social Psychology and Fields of Study / Industrial and Organizational Psychology and Fields of Study / Forensic Psychology and Fields of Study / Health Psychology and Fields of Study / Special Education / Trauma and Crisis Intervention / School Psychologist and Fields of Study / Psychology and Academia / The Field of Psychology and Ethics

**HISTORY OF PSYCHOLOGY**

The Study of the History of Psychology/ Philosophical Influences on Psychology/ Physiological Influences on Psychology/ The New Psychology/ Structuralism/ Functionalism: Antecedent Influences/ Functionalism: Development and Founding/ Applied Psychology: The Legacy of Functionalism/ Behaviorism: Antecedent Influences/ Behaviorism: After the Founding/ Gestalt Psychology/ Psychoanalysis: The Beginnings/ Psychoanalysis: After the Founding/ Contemporary in Psychology

**PROFESSIONAL ETHICS**

Definition of morality, philosophical discussions / Cognitive developmental approaches to morality / Gilligan's approach to morality & Social field theory / Neo-Kohlbergian approach / Bandura's moral distancing theory / Anthropological approaches to morality / Anthropological approaches to morality / Moral foundations theory / Psychoanalytic approach to morality / Evolutionary approach to morality / Postmodernist approach to morality / Project presentations

ÜNİVERSİTESİ

**FACULTY OF HUMAN AND SOCIAL SCIENCES**  
**DEPARTMENT OF PSYCHOLOGY (30% English)**  
**2025-2026 ACADEMIC YEAR COURSE CONTENTS**

**GRADUATION PROJECT**

Determining the project topic / Establishing assumptions and sub-assumptions / Creating a protocol  
Literature review / Selecting and discussing scales and resources / Creating the introduction, materials,  
and methods sections / Data collection / Statistical study and writing the findings / Writing the discussion  
/ Defending the project with visual materials

**STRESS AND COPING WITH STRESS**

Definitions of stress / Symptoms of stress / Types of stress and developmental stress / Sources of stress  
/ Mental consequences of stress / Stress Emotional Consequences / Physical Consequences of Stress /  
Behavioral Consequences of Stress / Personality Traits of Those Prone to Stress / Work Stress and its  
Sources / Quality of Work Life and Stress / Stress Management Skills / Behavioral Approaches and  
Techniques in Stress Management

**SCHOOL PSYCHOLOGY**

Introduction to School Psychology / History / Ethical Rules / Duties, Responsibilities, and Limitations  
of School Psychologists and Counselors / Points to Consider in Establishing Relationships with Students,  
Teachers, and Families / The Role of the School Psychologist in Assessment / Techniques Used in the  
School Environment (Test and Non-Test Techniques) / Deciding on and Planning Interventions in the  
School Environment / Individual and Group Counseling Techniques / Inclusion and IEP / General  
Assessment

**POPULAR FILMS**

Examination of psychological themes in popular films / Evaluating the interaction of films with society  
and mental health / Critical examination of different subfields of psychology in popular cinema /  
Through films Assessing Psychopathology / Critically Evaluating the Depiction of Psychological Issues  
in Films

**MASTERY IN LIFE**

Self-Awareness / Goal Setting / Time Management / Communication / Conflict Resolution and  
Assertiveness / Public Expression / Psychoanalytic Theory / Cognitive and Behavioral Theory / Stress  
and Stress Management / Building Healthy Relationships

**PSYCHOLOGY OF ADDICTION**

Introduction to Addiction / History of Addiction / Diagnosis and Criteria for Substance Abuse / Drugs  
and Stimulants and Their Characteristics / Factors Affecting the Development of Addiction / Problems  
Accompanying Addiction / Motivational Interviewing Techniques / Applications of Cognitive  
Behavioral Therapy in Addiction Treatment / General Review

**FORENSIC PSYCHOLOGY**

Domestic Violence / Dating Violence / Sexual Assault / Elder Neglect and Abuse / Child Neglect and  
Abuse / Children Involved in Crime / Hate Crimes / Animal Neglect and Abuse

**LANGUAGE DEVELOPMENT**

Systems that constitute language / Theories explaining language development / Brain and language  
relationship / Language development in stages / Development of speech and expression / Factors  
affecting language development / Pre-reading and writing skills / Language and speech disorders.

**2025-2026 ACADEMIC YEAR COURSE CONTENTS**

**ADDICTION PSYCHOLOGY AND BEHAVIORAL ADDICTIONS**

Basic Concepts in Addiction: What is addiction? / Causes of Addiction / Clinical Interview and Diagnostic Approach in Addiction / Diagnosis and Classification in Addiction / Addictive Substances and Their Effects. Types of Behavioral Addictions: Technology Addiction / Gambling Addiction / Other Behavioral Addictions / Addiction and Family / Addiction Prevention / Treatment Approaches in Addiction.

**COGNITIVE DEVELOPMENT**

Definition of Cognitive Development / Basic Cognitive Skills / Theories of Cognitive Development (Piaget, Vygotsky, etc.) / Development of the Brain and Nervous System / Research Methods for Cognitive Skills / Cognitive and Moral Development According to Developmental Stages / Cognitive Development in Infancy / Early Childhood / Middle and Late Childhood / Adolescence / Young Adulthood / Middle Adulthood / Programs to Support Cognitive Development in Late Adulthood

**EXPERIMENTAL PSYCHOLOGY SELECTED TOPICS**

Experimental psychology: historical perspective / Research techniques in experimental psychology / Experimental Design and Research Ethics / Psychophysical perception, attention, and reaction time / Conditioning and learning / Remembering and Forgetting / Thinking and problem-solving / Individual Differences / Experimental Social Psychology / Environmental Psychology / Human Factors and Behavior

**MOTIVATION**

The Concept of Motivation / Physiological Mechanisms in Motivation: Genetics Approaches/ Physiological Mechanisms in Motivation: Arousal Processes/ Physiological Mechanisms in Motivation: Regulation Processes/ Behavioral Approaches in Motivation: Classical Conditioning/ Behavioral Approaches in Motivation: Operant Conditioning/ Behavioral Approaches in Motivation: Reinforcement/ Cognitive Approaches in Motivation: Expectancy-Value Approach/ Cognitive Approaches in Motivation: Cognitive Consistency and Social Motivation/ Cognitive Approaches in Motivation: Attribution Approaches/ Cognitive Approaches in Motivation: Social Control/ Emotion and Motivation-1/ Emotion and Motivation-2/ Current Issues in Motivation and Emotion.

**SELECTED TOPICS IN COGNITIVE PSYCHOLOGY**

Perception/ Attention/ Consciousness/ Memory/ Knowledge/ Language/ Problem solving/ Creativity/ Decision making/ Reasoning/ Artificial intelligence.

**CIVIL SOCIETY ORGANIZATIONS AND PROJECT DEVELOPMENT**

Social Movements / Examples of Civil Society Organizations (CSOs) / CSO Activities / Problems and Debates Arising in the Context of CSOs.

**THE SELF**

The Self/ Formation of the Self/ Its Relationship with Social-Psychological-Cognitive Processes/ Theoretical Approaches/ Related Research

**PSYCHOLOGY STUDIES IN THE TURKISH ISLAMIC TRADITION**

Turkish Islam/ Shamanistic Period/ Approaches of Turkish Islamic Physicians to Psychological Illnesses/ Music Therapy in the Turkish Islamic Tradition/ Assessments of Islamic Scholars in the Field of Psychology/ Al-Kindi: The First Muslim Psychologist/ Al-Belhi/ Sadness/ Ghazali/ Mevlana/ Yunus Emre/ İsmail Hakkı İzmirli and the History of Modern Psychology/ General Assessment

2025-2026 ACADEMIC YEAR COURSE CONTENTS**

**CASE STUDIES IN CLINICAL PSYCHOPATHOLOGY**

This course examines, through case studies, how clinical psychopathological assessments are conducted and the criteria used to determine the place of clinical assessment results in diagnostic systems. It also explores how to differentiate and definitively diagnose similar psychopathological manifestations in clinical decision-making processes, and how clinical psychopathological signs and symptoms are related to fundamental elements of the mental structure. Case studies related to mood disorders, schizophrenia and other psychotic disorders, anxiety disorders, obsessive-compulsive disorders, trauma and stress-related disorders, somatic symptom disorders, eating disorders, cognitive disorders, personality disorders, and sexual disorders are covered.

**PSYCHOLOGY READINGS**

Definition of Academic Article / Types of Academic Articles / Searching and Finding Scientific Articles in the Field of Psychology / Differences Between Types of Academic Articles / Characteristics of Scientific Articles in the Field of Psychology / Current Article Writing Style Characteristics / Academic Article Search / Library Use / Finding Scientific Articles in Electronic Media / Databases / Academic Journals / Identifying Journal Web Pages / Scientific Writing Styles in the Field of Psychology / Academic Articles and Student Assignments / Undergraduate Theses / Specialization Theses / Doctoral Theses / Academic Article Presentation / Presenting Scientific Work at Scientific Congresses and Meetings / Determining and Conducting the Process of Preparing Different Types of Scientific Articles in the Field of Psychology

**AGGRESSION AND VIOLENCE**

Theoretical Approaches to Aggression and Violence / Violence and Psychosocial Dynamics / Violence as a Vicious Cycle / Discrimination and Violence / Self-Harm / Individual Violence / Collective Violence / Alcohol and Substance Use and Violence / Psychopathology and Violence / Culture of Violence and Prevention

**PSYCHOLOGY OF AGING**

What is Aging? / Definitions and Stages / Psychological Stages of Aging / Changes in Old Age / Aging and Emotion / Gender-Related Changes / Old Age

**SENSATION AND PERCEPTION**

Sensation and sensory thresholds Perceptual organization/ Perception of depth Perceptual constancy/ Perceptual illusions Beyond sensory perception/ Social perception Vision and experimental/ presentations/ Hearing and experimental presentations/ Taste and experimental presentations/ Odor and experimental presentations/ Touch and experimental presentations/ Other senses and experimental presentations.

**POSITIVE PSYCHOLOGY**

Concept, History, Nature, Dimension and scope of Positive Psychology/ Positive Emotional States and Processes/Positive Emotions and well being/ Hope & Optimism, Love/ The Positive Psychology of Emotional Intelligence/Influence of Positive Emotions/Strengths and Virtues/ Happiness/Forgiveness and Gratitude/Broaden-and-Build Theory of Positive Emotions/ Positive Psychology in Workplace/Positive Organizations: Roles & Routines
