İSTANBUL TİCARET ÜNİVERSİTESİ

SIEMENS

SOFTWARE TEST ENGINEER (INTEGRATION) / CONTROL PRO

Siemens Corporate Technology Evosoft group is one of the main SW R&D departments within the Siemens Group, serving to divisions of Siemens in the areas of Industrial Automation, Energy Automation, Industrial Communication and Identification and Healthcare. Siemens CT Evosoft has established a new R&D Center in Siemens Gebze campus and will be providing professional SW Product Development services to several Siemens divisions. We are looking for Software Engineers who are willing to shape the future with us.

What are my responsibilities?

- Author test plans and test cases based on product requirements
- Writing automated module and integration test when necessary
- Performing automated and manual tests according to test plans
- Recording, tracking, and regressing defects using standard bug tracking tools
- Measurement of test case coverage
- Work close to development team
- Integration test of software for SIRIUS family of products / PC Based Automation products

What do I need to qualify for this job?

- Bachelor's Degree in BSEE, BSCE or BSCS or equivalent experience
- Excellent command of English
- Experience testing complex software systems (manual and automated)
- Experience writing and editing test scripts
- Excellent understanding of testing concepts and the role of QA in the software development lifecycle
- Basic knowledge in C++, C#, .NET
- Knowledge in Industrial Automation systems
- 3-5 years of work experience

What else do I need to know?

- Male candidates should have completed the military service requirements.
- No restriction for traveling abroad

Yukarıda şartlara uyum sağlayan mezunlarımız http://kariyerportali.ticaret.edu.tr/ sitesinden özgeçmiş oluşturarak açık pozisyonlar bölümünden başvuruda bulunabilirler.

Son Başvuru Tarihi: 15.10.2015

Not: Bu ilan, sadece İstanbul Ticaret Üniversitesi öğrencilerini ve mezunlarını bilgilendirme amacı taşımaktadır.
