CYBERSHIELD INNOVATORS

Pioneering the Future of Digital Security

CYBERSHIELD INNOVATORS TRAINING PROGRAM

Shaping the Future with the Next Generation of Cybersecurity Experts

Launched through the collaboration between Istanbul Gelişim University and Germany-based Proficiency Institute and supported by the European Institute of Innovation and Technology (EIT), the “CyberShield Innovators: Pioneering the Future of Digital Security” program invites individuals who wish to gain in-depth knowledge and skills in the field of digital security to an innovative and transformative learning journey.

Program Objective

In a world where digital threats are rapidly evolving, the CyberShield Innovators program ai Ek-3
equip a new generation of cybersecurity professionals with robust technical skills and ethic
awareness.This intensive 5-month online training offers a wide-ranging curriculum—from foundational knowledge to advanced threat detection and prevention techniques

Program Highlights

	Tanım
	%100 online delievery
	International Instructors and Guest Experts
	Hands-On Training: Ethical hacking, cryptography, network security, AI-powered threat analysis, and more
	Mentoring Support
	Priority and Support for Female Participants
	Internationally Recognized Certification

Who can Apply?

- Recent graduates (female applicants will be prioritized)
- Professionals aiming to transition into cybersecurity
- IT specialists seeking to deepen their expertise

Curriculum Overview (80 H/ EQF Levels 4-6)

	Topic	Hours
	Cyber Security Essentials	10
	Network Essentials	10
	Linux Essentials	4
	Open-source intelligence (OSINT)	10
	Penetration Test Network & System	39
	AI Applications in Cybersecurity	5
	Career Planning (Cybersecurity)	2

Training Period

Jun 2025 – September 2025

All courses will be delivered entirely online.

Application Process

- **Application Deadline: 31.05.2025**
- **Application Form: https://csinnovator.com/en/account/register**
- **Selection Process: Preliminary evaluation and short interviews if necessary**

Quota and Selection Criteria

- A total of 800 participants will be accepted
- At least 30% of selected participants will be women
- Applicants with strong technical backgrounds and high motivation will be prioritized

Certification

Participants who successfully complete the program will receive:

- EIT (European Institute of Innovation and Technology)-approved international certificate
- Certificate of Achievement from the course provider
- ECTS-aligned certification (academically recognized)
