Call for Papers

The Organising Committee invites scholars, researchers, doctoral students and professionals to submit original research papers for **ICEBM 2026**.

The conference welcomes contributions exploring how digital technologies, artificial intelligence, innovation and sustainability are reshaping modern economies, businesses and institutions.

Submissions are invited from a broad range of disciplines, including economics, business, management, tourism, information technology and related fields.

Accepted papers will be presented during the conference and published in the **conference proceedings**, which will be available in open access and submitted for indexing in international academic databases.
